Washington, DC 20554

RE: Ultra-Wideband  
ET Docket 98-153

Dear Ms. Salas:

I am writing to you in response to the FCC's Notice of Proposed Rule Making on Ultra-Wideband radio.

The ability to reach and serve disabled individuals, unable to identify their own location during duress is an obvious benefit for our population of consumers of mental health services. We support the humane use of wide band communication technologies.

We also request strident policy measures to control what could be an intrusive device into lives, threatening privacy rights.

Sincerely,

Elizabeth F. Adams  
Executive Director  
NAMI Kansas
